NEWS FROM ALL POINTS,
(By Special Telegraph.)

Want of Confidence.

REGINA, Nov. 11.—On Saturday Clinkskill, of Battleford, moved a vote of want of confidence in the new Advisory Board, seconded by Thorburn, of Broadview. After a debate of over eight hours the motion carried on a division of 13 to 8.

What They Claim.

The members who voted for the motion claimed, on the floor of the house, that His Honor the Lieut. Governor was endeavoring to withhold powers clearly granted to the Assembly by the Dominion Act.

Asking for Returns.

Haultain, late leader of the Advisory Board, asked for certain returns showing expenditure during the year, which was refused by the new Advisory Board. This hastened the want of confidence resolution.

Asking too Much.

Dr. Brett, the leader of the new Advisory Board, made a lengthy speech, claiming that members supporting the resolution were endeavoring to go beyond the spirit of the intention of the Dominion Act, and as he read the law the Lieut-Governor had granted even more powers to the Assembly than the Act provided, as an act of courtesy and a desire to form closer relations with the people through their representatives.

Whither are they Drifting?

Just what the outcome will be it is difficult to say.

They Hold the Fort.

It is thought the Board will continue to hold office although not possessing the confidence of the Assembly.

Not Allowed to Resign.

REGINA, Nov. 13.—In answer to a question yesterday, the Advisory Board read their letter of resignation and the Lt.-Governor's reply refusing to accept, on the grounds that they retain his confidence.

The Reason why.

The reply continued, Territorial matters alone are intended alone by the statute to be placed under the control of the Assembly and it is only in the event of your administering such affairs in opposition to the wishes of the majority of the House that your resignation as members of the Executive can be entertained.

The Estimates.

The Territorial estimates were laid on the table to-day. They do not include any part of the Federal subsidy. The total amount of aid to districts out of local funds is $14,219. This includes the second grant to districts already made. The estimates are to be considered to-morrow.

For this Season.

Railway work is about over.

Snow.

Snow fell yesterday, but not enough yet for sleighing.

The Work Done.

Grading is done to Saskatoon, but the track is laid only about seventy miles out

Deserted.

WINNIPEG, Nov. 14.—Some Indians taken east on a starving tour by an adventurer were abandoned. Hon. Mr. Dewdney gave them money to take them home.

Famine.

There is a famine in the Transvaal.

Insurrection.

An insurrection in Samoa has broken out again.

Appointment.

Premier Sullivan has been appointed Chief Justice of Prince Edward Island.

Killed.

Leddeau, a Baie St. Paul farmer, fell off his waggon and was killed on Tuesday

Arrested.

Sixty Boulangists were arrested for attempting to hold a demonstration in Paris.

Grading Stopped.

The work of grading on the Long Lake & Prince Albert Railway has been suspended.

Carnival.

Ottawa is endeavoring to get up a winter carnival.

Declined.

Sir Chas. Dilke declined the offer of the candidacy of Fulham.

Sold His Family.

A Halifax man has disposed of his wife and five children for forty dollars.

Knocked Out.

Jem Smith, champion pugilist of England, was defeated by Jackson, the negro Australian.

The Commission Appointed.

The Dominion Government will appoint a commission to enquire into the Mounted Police grievances.

Exemptions.

The Ontario Tax Exemption Convention recommends that cemeteries only be exempt from taxation.

Blizzards.

Great loss of human life and also of horses, cattle and sheep has resulted from blizzards in the southern ranches.

Fatal Mistake.

Joseph Marshall, farmer, of Crystal City, took oxalic acid instead of epsom salts and died in a few hours afterwards.

To be Closed.

The Emerson branch of the C. P. R. will be closed on the 1st December, and settlers along the line are protesting vigorously.

For Five Years.

Three railway mail clerks were convicted, this week at Ottawa, for letter pilfering, and given five years each in the penitentiary.

Free Excursion.

The C. P. R. is giving the Montreal City Council a free excursion to Sault Ste Marie, Minneapolis, Duluth, Port Arthur and Winnipeg.

Ghastly Find.

One hundred human skeletons were found in the cellar of ex-President Zalvidar, of San Salvidor. It is supposed the victims are political opponents who mysteriously disappeared from time to time.

Disaster.

Six mill dams, four bridges and some houses were swept away, and two persons drowned at Alton, Cardwell County, Ont., on Wednesday morning. Cause of the disaster was the bursting of the first dam at McLellan's flour mill.

Want of Confidence.

REGINA, Nov. 15.—Yesterday on motion of Dr. Brett to go into committee on supply, Haultain moved an amendment that the house do not consider Supply until an account is rendered of the sums votad last year. He urged that as the House had been asked to vote money last year, it was now entitled to an account of how that money had been expended.

No Right to Vote.

It was argued on behalf of the Advisory Board that the House had not the right to vote the money last year and therefore was not entitled to an account of the expenditures under that vote.

Voted Down.

A vote was taken at 1:30 this morning supporting Haultain's amendment, by twelve to seven. Although this was a direct vote of want of confidence in the Advisory Board, Dr. Brett at once moved the House to go into committee on Supply, which was defeated by a vote of twelve to seven.

The Situation.

The dispute between the House and the Advisory Board is thus narrowed down to the question as whether the majority or the minority of the House shall advise the Lieut. Governor in executive matters.

Parody, on Jelly.

The Governor he calls for me
On every occasion,
Nor is it difficult to see,
I little need persuasion,
I sit with either friend or foe,
Though I may not be clever, [go,
Yet Boards may come and Boards may
But I sit on forever.

Like the Jeb, it is I own
The height of my sublimity,
A Board to sometimes overthrown,
But not my equanimity.
I sit with either friend or foe
And though I am not clever, [go,
Yet Boards may come and Boards may
But I sit on forever.

FRIDAY, NOV. 15, 1889.

The fact has just been brought to our notice that a considerable portion of the expenses of two of the delegates sent to Ottawa on railway matters in 1888 has been borne by themselves. These gentlemen were sent down on that important mission by the town, and it does not seem fair to us that they should have to bear any part of the expenses incurred. They received no remuneration, and gave nearly three months time in the interests of those who sent them. The town may not be legally bound to pay these expenses. The Council may say that they only promised a certain sum, which was paid, and that the delegates should not have gone beyond that. They object that much of the expenditure—such as cab hire—was unnecessary; that the delegates were not obliged to put up at the best hotels, and that if they chose to do so the town should not be saddled with the cost. We think that such a view of the matter is wrong. It is well known that in Ottawa, especially during session time, living as well as everything else is very expensive. It is also a fact that if a person expects to be noticed and obtain an *entre* into Ministerial circles he must put on a certain air of importance, and in order to do that and "stand in" with people of influence and importance requires an expenditure of money which it would not be necessary for a person travelling in a private capacity to make. We should not expect our delegates to have tramped around Ottawa on foot like an Indian around Prince Albert when everybody else were using cabs. If they did, they would probably have been noticed as much by Ministers and other men of influence as we notice the Indian. It must also be remembered that when gentlemen are entertained at clubs and dinners and so on, they have as a matter of courtesy to return the compliment, otherwise appear mean and at once lose their standing. We asked our delegates to put themselves in a position where these things would be required of them. They accepted the thankless office, and attended well to our interests, and we do not think that we should now repudiate any of their expenses. This is a matter for our Town Council to deal with, and we hope that for the honor of Prince Albert they will take immediate steps towards reimbursing the gentlemen referred to any amounts they may have paid out of their own pockets.

EDITORIAL NOTES.

Subscribe for THE TIMES from now till January 1st, 1891—only $2.

The Vermont agricultural commissioner has issued another startling bulletin as to the vacant farm lands in that state. The advocates of commercial union have yet to explain the causes which ruined these farmers who were in enjoyment of the vaunted policy.

The Regina *Leader* is after Commissioner Herchmer again. If the Commissioner is half as bad as the *Leader* would wish us to believe, he should at once be dismissed. When our Regina cotem is not praising Davin, it is abusing Herchmer. Without these two gentlemen, it would soon cease publication for want of subject.

The graduating classes at Harvard and Cornell have chosen colored students to read the valedictories of the classes. This is done to show that there is no narrow prejudice among the educated youth of the North, whatever may be the feeling in the South. It accentuates the strong difference of opinion which still divides one section of the United States white people from the other.

We believe it has been decided by the Dominion Government to extend the militia system to the Northwest, and that leave will be granted to form companies in the more important centres. This will, as a matter of course, include Prince Albert. There may be no pressing necessity for military organization here at present, but would it not be wise for the Rifle Association to take the matter in hand and organize a company? The members could enrol, and thus be eligible to compete in the annual matches of the D. R. A. and also for a place on the Canadian Wimbledon team in the event of any of them coming up to the required standard as a marksman. The President of the Saskatchewan Rifle Association should call a meeting and have the matter discussed. If it is going to be done, it should be done at once.

SASKATCHEWAN INSTITUTE.

The first annual meeting of Saskatchewan Institute was held in the Institute rooms on Saturday evening last. Supt. A. Bowen Perry, president, in the chair. There was a fair attendance of members present, all of whom evinced a deep interest in the proceedings. The secretary read the proceedings of the last regular meeting, after which the annual report was presented and read by the president. It was a most interesting document, reviewing the work of the past year and showed that in the eight months that had elapsed since the Institute was formed a great deal had been accomplished, and that the Institute was in a very flourishing condition. The report of the scientific section was presented by W.R. Gunn, M.A., chairman of that section, and that of the historical section by its chairman, Dr. Porter. Both these reports were read and demonstrated that neither section had been idle, but had accomplished a great deal during their short existence. The financial statement was most gratifying. It showed a balance to the credit of the Institute of about $75. All the reports were adopted and will doubtless be published if satisfactory arrangements can be made. The election of office bearers, for the ensuing year was next proceed with and resulted as follows:—President, Rev. Dr. Jardine, Sc.D.; Vice-Pres., Ven. Archdeacon J. A. Mackay, D.D; Sec.-Treas., H. W. Newlands; Cor.-Sec., J. McKay; Committee of Management, A. Bowen Perry, W.R. Gunn, M.A., R.J Pritchard, A. E. Porter, M.D., Ven Archdeacon G. McKay, B.D., James McKay, J. L. Johnson and William V. Maclise. A vote of thanks was passed to the retiring president and other officers. The following new members were elected: D.H. Macdowall, Esq. M.P., Mrs. Macdowall, Mr. L. J. Clarke. After some discussion as to the work of the Institute for the present year the meeting adjourned. The next regular meeting will be held on Friday evening, 22nd inst., when the president will deliver his inaugural address.

ANNUAL REPORT

Of the Saskatchewan Institute

The following is the annual report of the president of the Saskatchewan Institute presented at the first annual meeting of the members of the Institute, held in their rooms at Nisbet Academy on Nov. 9th, 1889.

"In February of last year, owing to a feeling amongst a number of people of this place, a meeting, in the Nisbet Academy, Prince Albert, was held for the purpose of considering the question of whether a society of a literary and scientific nature should be formed in the town of Prince Albert. There was a very large attendance and a decided expression of opinion, that a society to encourage scientific and literary study, to encourage original research and further the higher educational interests of this place, should be formed, consequently a constitution was proposed, considered and adopted, and under that constitution officers were elected. A general committee, to be the governing body was authorized by the constitution and elected by the members, and the general committee was directed to meet and draw up by-laws for the governance and working of the Institute. The meeting then adjourned till February 6th. On that date the by-laws were presented by the committee and after some amendments were adopted. It was agreed that fortnightly meetings should be held from then to April, when papers should be read or lectures delivered, and that from May to October, monthly meetings for the transaction of necessary business.

During the winter months the regular meetings were held and the following papers were read, mostly on matters of an original character:—

1. On mythology and folk lore of the Cree Indians, particularly dealing with the Indian idea of the creation and flood. By Mr. A. B. Perry.

2. On a course of scientific study, indicating the field open to members of the Institute in the different scientific branches, and pointing out the origin, work and immense importance of diligent prosecution thereof, both from a scientific and economic stand point. By the Rev. Dr. Jardine.

3. On Northwest Literature; giving a list of books dealing with these Territories, and a short reference to the important ones—a paper of importance showing the works which should be obtained by the library of the Institute for consultation by its members. By the Rev. John Howard.

4. On Indian Folk Lore. Dealing particularly with the experience of the writer during a long and intimate connection with the Cree Indians and some very interesting Indian tales of war and love. The startling hypothesis was advanced that strictly speaking the heathen Indian knew no god, all supreme, but that the idea which has been frequently found to exist, has arisen through contact with the Christian missionary; it may be in remote days and by filtration through many tribes. By Rev. John A. Mackay, D.D.

5. On the Winter Birds of the Saskatchewan. A descriptive essay on the feathered denizens of our district. Giving scientific distinction and a sketch of their habits and means of livelihood. The paper professed to deal only with the kinds actually observed, and did not pretend to be a complete list. By W. R. Gunn, M.A.

6. The Cree Indian Dances. A description of the different dances now practiced or fallen into disuse. The author speaks from his own observations and without consultation with works on the same subject, and therefore the paper is of great importance. By W. Spencer.

Some of the papers are unquestionably of great value, and the thanks of this Institute are due to the members who so kindly contributed them. It is hoped that in the near future the Institute may be in such a financial position as to warrant the expenditure necessary to have those of particular value printed.

The original members numbered thirty-one and during the year twenty-one more were enrolled.

Seventeen corresponding members were nominated and all without exception responded in the most cordial manner to the invitation of our Institute. Some of them professed themselves as most anxious to forward the interests of our society and to afford all the assistance in their power. Among those particularly distinguished who have offered us encouragement are Dr. G.M. Dawson, Rev. Dr. Fowler, Dr. Honeyman, Nova Scotia, Dr. Selwyn, Director Geological Survey.

We regret to have to announce the loss of two of our corresponding members through death, viz: Dr. Rand and Dr. Honeyman.

It is particularly gratifying to have received such encouragement, and it should nerve us to increased effort in order to deserve the support promised, and should now convince the faltering that this society is not premature in the eyes of men capable of judging and therefore should be encouraged.

On June 28th the Institute, at a reception to his Honor Joseph Royal, Lieut.-Governor, on the occasion of an official vifit to this district, named this gentleman the first honorary member. His Honor acknowledged the courtesy and assured us of his cordial assistance to the Institute which he said was worthy of all encouragement.

The financial state of the Institute does not show a large balance, but it is on the right side. Care has been taken to prevent a headlong expenditure and plunging into debt, which is the deathblow of so many institutions.

The account of the treasurer, attached to this report, shews a balance of $73 35 after a cash expenditure of $43 25.

ASSETS.

Unpaid subscriptions	$37 50
Grant from Town Council	50 00

LIABILITIES.

Liabilities	51 91

The general committee, under instructions, petitioned the Northwest Government to extend aid to the Institute by an annual grant of $500, contending that on the grounds of higher education, establishment of a library and museum, and prosecution of scientific research, the Institute was an object deserving of liberal support from the government. No answer has as yet been received but a favorable answer in part is not despaired of. Should such be received another stone will have been laid in the permanent foundation of this most useful society.

The thanks of the Institute is due to the trustees of the Nisbet Academy for the use of rooms at a nominal rent.

The Town Council, on a memorial from the committee generously donated $50, for which the thanks of the Institute are due for their very liberal action.

The beginning of a library has been made. A full catalogue of the books, pamphlets, etc., to this date, is attached. The total of 136 volumes, pamphlets, reports, etc., have been obtained as follows:—

Books of reference purchased	5
" presented	3
Pamphlets presented	19
Departmental Reports	18
Geological and Natural History, Survey, from 73 to 86	9
Catalogue of plants, Canadian	4
Palæontology	1
Trans. of Royal Society, Canada	5
Smithsonian Institute	18
Miscellaneous	2
	84
Reports of Victoria Institute, London, presented by Chief Factor Fortescue	37
Pamphlets presented by Chief Factor Fortescue	15
	136

Many of the reports and transactions will be forwarded us from time to time as issued, but it cannot be hoped that the different scientific societies will place this Institute on their distributing list unless we can offer in return our transactions. It is of great importance that we should obtain from all societies the yearly publications for they contain matter of vast interest and of the very latest information on all subjects by the leading minds of the world. These reports alone will form in time a library of reference of the most valuable kind. To obtain these immense advantages requires only a small expenditure on our part, and is a matter for immediate action by this meeting. It is not proposed that the library should at present take a popular form and consequently the limited purchases made have been confined to books of reference. Although it is a matter for congratulation that we have received as many gratuitous contributions, it is quite certain a more extended request will bring substantial results from other societies.

The reports of the different sections is appended and will shew the work accomplished in the different sections of literature, science and history during the year.

In considering the future year which we are now entering, attention might be with benefit called to the following points:—

Meteorology of the district. In this is found a field of importance, scientific and economic. The meteorological returns for a long time, as fast as possible, should be obtained and the information thus gained be published. There is a great difference of opinion as to our maximum and minimum temperature, amount of rainfall, penetration of frost, snowfall and winds, direction, force and prevailing direction.

Natural science. A field is open to many without even an accurate knowledge. The time of flowering of plants, duration of flower, and time of ripening; time of migration and return of birds; the appearance of insects, etc.,

An endeavor should be made to bring in outsiders and in a number of cases to intereet those already members of the Institute. With this end in view it is for this meeting to consider whether it would not be advisable to render a certain number of the lectures popular as well as instructive, so that an interest would be created and maintained. The lack of interest, by all except a few, has been the trouble in all such societies and many remedies have been proposed. Prof. McGregor, of the Nova Scotie Institute, in his annual address states that all reading papers on scientific subjects have made it a practice to preface their papers with short lectures in popular form on the same subject as an introduction to the paper, which has been found to work well. Active working members are demanded and it cannot be too strongly dealt on. The Institute to make for itself a place must have intelligent workers who must be found to take up certain lines and follow them with diligence, a desultory attempt is of no use. Specialists are wanted. The most regular attendant at the regular or committee meetings, although praiseworthy, does not entitle any member to rank himself or herself as a working member.

During the year a circular memorandum was received from the British Association urging the ability of the Canadian Northwest to preserve the history of religion, law, government, social relation, mythology, etc., of the Indian tribes before it had disappeared They point out the lines of research and in reading it over one is struck at once that among the members of this institute we have those who can of their own knowledge give much of the information desirable. It is the intention to have the different reports, received from all sources, edited by Mr. Hale justly celebrated in that work, and printed in the transactions. In every case credit will be given to the particular society or investigator. This should not be neglected, it is a ready means at hand to establish the value of our Institute and contribute some little to the world's knowledge. In concluding this general report the members are entitled to congratulate themselves on the success so far attained, which should urge them on to determined effort believing that benefits will accrue therefrom to each personally, to the society and to the public at large.

DUCK LAKE.

The weather is clear and cold.

There is one passenger on the in-coming stage.

Duck Lake s frozen over and Indians are crossing it.

The ferry at Batoche has been taken out of the river for the winter.

Magnus Briston has taken a small contract for ties and has commenced work.

All the parties who left here to work on the railway returned yesterday, the work having ceased.

A. J. McNeill was in town on Thursday and reports his wife and Miss Finlayson, who were severely hurt a couple of weeks ago, doing well.

Mr. Cameron, the new clerk for the Indian Agency here, arrived on Sunday evening last. He has lately been transferred from the Land Department.

The railway engineers are eight miles below Cameron's. The line runs through Lyttle's farm, touches McFarlane's and thence through the Pocha settlement.

Jack McKenzie is in his glory now. This year's wheat makes A 1 flour and he has the mill in first-class shape. A great many have been here from your district.

Several land hunters from your district have been in town during the past few days. They all complain at the distance to a land office, the Government should open one here.

A grand bazaar will be held in the new building of St. Ann's Convent on Wednesday and Thursday, the 20th and 21st inst.

Coughs, Colds, Croup.

Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that **it is warranted to break up the most distressing cough in a few hours' time**, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and $1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.

LOCAL HAPPENINGS

In Our Midst.

F. C. Baker has just received a lot of Furniture, which he will sell cheap.

Rev. J. Peters left for Saskatoon on Monday.

Deputy-Sheriff Hanafin is on the incoming stage.

J. P. Scott has removed to town, from his farm, for the winter.

Hugh Nelson has nearly completed his residence on Secon dstreet.

Capt. Craig was in town on Tuesday and called on THE TIMES.

Every lady in town should read T. O. Davis' advertisement this week.

Andrew Spence, of St. Andrew's, was in town Wednesday and Thursday.

Rev. Cano Flett, School Inspebtor, visited our town Public Schools this week.

Sergt. Montgomery and Const. Garrison returned to-day from a visit to Saskatoon.

Mr. Jos. Finlayson arrived in town last Saturday. He has nearly recovered from his recent illness.

J. Lestock Reid, D.L.S., arrived in town on Wednesday. His party will be here in about two weeks.

T. O. Davis is showing a magnificent assortment of ladies Ulsters. Give him a call, and judge for yourself.

T. N. Campbell was in town on Monday. He says tha survey party will reach here in about two weeks.

Mr. Pendergast, who went to Saskatoon last week, has returned, and says he intends to remain here permanently.

Const. Hooper, N.W.M.P., has purchased his discharge, and leaves for his home at Boston, Mass., on a visit next mail.

Pure Apple Cider, by the glass, at R T. Goodfellow's.

A number of pedlars are travelling through this district at present presenting their cheap wares to tne unwary farmer.

Mr. R. Stanley was at Batoche on Tuesday, with his teams, on his way home from the Regina and Prince Albert railway.

Both the North and South Branches of the Saskatchewan froze over this week. The former on Tuesday and the latter last night.

Geo. Mills is acting deputy-sheriff during Sheriff Hughes' and Deputy-Sheriff Hanaffn's absence with prisoners for Stoney Mountain.

Our enterprising druggist, T. E. Jackson, is inserting a boiler to be connected with his fountain. He will dispense hot drinks to the public during the winter months. Good idea.

J. Murdock McLeod, who was arrested on a charge of stealing goods from Wm. Shannon's store about two weeks ago and sent up for trial by Supt. Perry, was sentenced to-day to eighteen months imprisonment at the barracks.

Eight barrels Grapes arrived at R. T. Goodfellow's.

T. E. Baker finished the curling rink Wednesday. The curlers are now busy preparing for the season's enjoyment. A large number are joining the club. The closed rink will make it much more comfortable for playing in the cold weather than the open one.

Our All-wool Grey Flannel at 25c per yard is the best in the market. F. C. Baker.

One day last week while Mr. RDeacon was repairing a log out-house he came across a grey birds nest with six warm eggs in it, and on breaking one found it was fresh. This looks as if birdy had mistaken this glorious weather for spring or that we are to have a mild winter.

Alex. Stewart, surveyor of the Long Lake & Prince Albert railway, was in town on Monday. His party are camped a short distance on this side of McFarlane's. After completing the survey to town Mr. Stewart intends to go on with the preliminary survey of a branch from Saskatoon and Edmonton.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth? If so, send at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING. It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. MRS. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the U. S., and is for sale by all druggists throughout the world. Price 25c. a bottle

For Jerseys, Jersey Jackets and Ulsters go to Bakers.'

A meeting of No. 2 Fire Company was held last evening at which the attendance was very slim. The chief was instructed to ask the Town Council to procure a suitable building for the fire appliances. The chief was also instructed to find out what a fire engine would cost. The company will have new jackets for the ball. The ball question was discussed, and left for further consideration. The next regular meeting will be held on the 7th December.

On Friday evening last Mr. T. E. Parker, of the Hudson's Bay Company was married to Miss Hetty Turner, sister of Mrs. Chas. Woodman. The ceremony was performed by Ven. Archdeacon Geo. McKay at the residence of Mr. C. Woodman amid a large assembly of friends. The bride was attended by Miss Macdonald and the groom by Mr. N. McKenzie. After the ceremony was performed the party sat down to a very sumptuous repast and the event of the evening was celebrated until the wee sma' hours, at which every one enjoyed themselves. The bride was presented with a number of handsome and costly presents. THE TIMES wishes the happy young couple many years of happiness and prosperity.

F. C. Baker has just received a ful assortment of Groceries and Confectionery.

CLARK'S CROSSING.

The South Branch became blocked with ice on the night of the 14th, the earliest in many years, and crossings may now be made in several places.

So far we have not had any snow and cattle are still living upon pasture.

Mrs. Alex. Marr, of Saskatoon, passed peacefully away on Sunday evening last after an illness of three weeks. Dr. Stewart, of Duck Lake, was telegraphed for and was on his way to Saskatoon when met by a messenger sent to inform him of Mrs. Marr's death. Sympathy is felt for her husband and seven small children in their bereavement.

The order suspending grading operations on the Q & L. L. railway, within seven miles of Saskatoon, were countermanded a week ago and work is now going on within the town limits. A grading party having arrived on Saturday last.

Tie Contractor Ross will employ a large number of men in the vicinity of Duck Lake during the winter. He has already made arrangements for the erection of stables, cook store and living rooms.

RED DEER HILL.

Another piece of road work has been done by the settlers on the line running along west side of Hill. A good job was done for the small amount of money expended.

The recent cold snap has put a stop to ploughing but not before nearly all the cultivated land had been placed in readiness for spring crop. The farmers are busy teaming grain to market — for which they are paid good prices—digging wells, repairing buildings and making preparations for winter.

On account of the scarcity and high price of coarse grain nearly all of the hogs will be butchered, as the farmers find that nothing can be made by keeping them over winter at the present prices of grain and pork.

George Glaister would like to know who made all the tracks in his field.

Two of Robt. Giles' children have left the Hill to attend school in town during the winter months.

A. D. Boylan has erected a new stable. Robt. Headrick has also put up a new building.

Messrs. Inkster & Fiddler heve been busy threshing, until a few days ago.

Hec. Ballentyne and Jas. Hourie have placed an engine in Hodgson's grist mill and are now griating for the farmers.

Thos. McKay was through this settlement buying grain, but he did not secure much.

Wm. Riley is visiting at the Hill.

Surveyors for the Q., L.L. & S. railway were seen camped about four miles from here, and the line will no doubt run very near the north-west corner of the Hill.

A number of people here are afflicted with very severe colds but as yet there is nothing more serious.

St. Andrews' Council No. 5 R.T. of T. is booming grandly. The steady increase of members and the great amount of interest taken by all can be seen by the fact that from thirty to forty members are in attendance at every meeting.

Thos. Glaister, A. D. Boylan and Jas. English took a trip to Duck Lake last week for the purpose of looking after land. They describe the place as well adapted to farming, but water was not found in any great abundance.

Miss H. Ballentyne is visiting friends at the Hill.

SCOTT'S EMULSION

OF PURE COD LIVER OIL AND HYPOPHOSPHITES.

Almost as Palatable as Milk.

THE ODELL TYPE WRITER

$15 will buy the *ODELL TYPE WRITER.*

Warranted to do as good work as any $100 machine.

It combines SIMPLICITY with DURABILITY -SPEED, EASE OF OPERATION—wears longer without cost of repairs than any other machine, has no ink ribbon to bother the operator. It is neat, substantial, nickel plated, perfect, and adapted to all kinds of type writing. Like a printing press, it produces Sharp, Clean, Legible Manuscripts. Two to ten copies can be produced at one writing. Editors, lawyers, ministers, bankers, merchants, manufacturers, business men, etc., cannot make a better investment for $15. Any intelligent person in a week can become a GOOD OPERATOR or a RAPID ONE in two months.

$1,000 offered any operator who can do better work with a Type Writer than that produced by the ODELL.

☞ Reliable agents and salesmen wanted Special inducements to dealers. For pamphlet, giving endorsements, etc., address the
